Dear Ms. Lewis:

Straight Talk America (FEC ID# C00413245) is in receipt of your letters dated April 13, 2007, concerning our amended 30 Day Post-General Report and our amended 2006 year-End report, both received 3/20/07.

The letters raise the issue of travel reimbursements received from other political committees, both federal and non-federal. These travel amounts billed (and reimbursements received) were indeed calculated in accordance with 11 CFR 100.52, as the Committee billed only the same amount as the costs it incurred on behalf of these federal and non-federal committees. Therefore, these costs met the criteria for the usual and normal charge, and there are no in-kind contributions or contributions received from unregistered organizations.

With respect to the amounts of the memo-entries for the American Express disbursements, certain vendor credits were not properly disclosed with negative amounts, which created the discrepancies. We are amending the 30-Day Post General to correctly reflect the negative amounts for the entries that are credits.

Sincerely:

Keith A. Davis, Treasurer
Straight Talk America
